

Minutes of the 2001 VASPA Executive Committee  
June 20, 2001

- the VASPA Executive committee has unanimously voted to support the extension of the conference contract with Wintergreen for another five years, through November, 2006. This vote is based in part on the results of a survey done of conference attendees who have overwhelmingly supported the idea of staying “on the mountain”.
- The VASPA awards for the conference will be determined earlier than in past years. The deadline for nominations has been moved up to September 10 so that information about the winners can be included in the conference guide. Dave Barnes will be communicating this to VACUHO so that they might adopt an earlier process if they choose to do so.
- The VASPA Executive Committee has voted to place correspondence such as meeting minutes, the VASPA Directory and the VASPA Interchange on-line through the VASPA web-site. This should enhance communication and reduce costs.
- The current amount in the VASPA treasury is \$2662.45
- Cindy Bambara will send to Tim Reed the email addresses of those who attended last year’s conference to further enhance connections and communications.
- The intention of the conference committee is to increase the conference registration to \$110 per delegate, but to keep the cost to graduate students at \$25
- The next meeting of the VASPA Executive Committee will be held in conjunction with the Conference Planning committee meeting in late September on the mountain in Wintergreen.
